CAMPUSHR / MOBILE V2

Academic Clarity

Faculty & Academic Workforce Operations · Jain College of Engineering & Technology, Hubballi

Academic information, clearly aligned.

Open sections. Quiet surfaces. Precise time and person alignment. One purposeful blue action; institutional orange stays a small detail.

01 Color roles

Canvas
#F7F8FC

Surface
#FFFFFF

Secondary surface
#F1F5F9

Ink
#111827

Secondary text
#667085

Divider
#E5E7EB

Action and domain

Action / timetable
#2563EB on #EFF6FF

Leave
#7C3AED on #F5F3FF

Attendance / success
#047857 on #ECFDF5

Warning
#92400E on #FFFBEB

Destructive
#B42318 on #FFF1EE

JCET accent
#B9330F on #FFFFFF

Contrast is a role, not a guess

White on Action Blue: 5.17:1. Mint Ink on Mint Container: 5.21:1. Secondary Text on Secondary Surface: 4.54:1. Bright mint, amber, coral and tertiary gray are accents—not small text colors.

Canonical values and restrictions: DESIGN_SYSTEM.md + tokens.json. No screens or runtime theme changes.

CAMPUSHR / MOBILE V2

Type, rhythm and glyphs

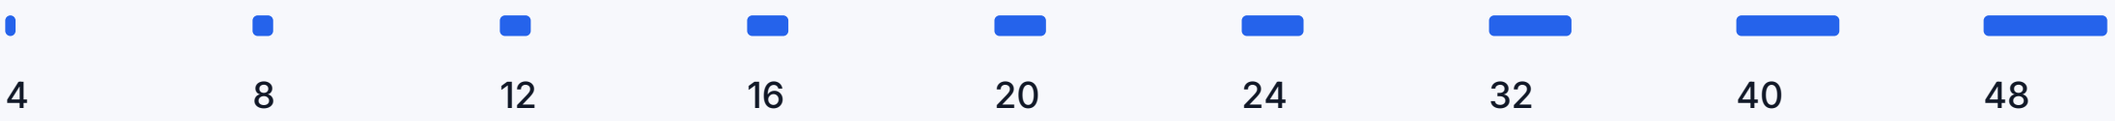
One shared hierarchy; native font behavior and icon families on each platform.

02 Typography

Large page title	32 / 38 · 600
Navigation title	18 / 24 · 600
Greeting title	26 / 32 · 600
Section title	20 / 26 · 600
Body: your next class	17 / 26 · 400
Secondary body: CSE 5A · Room 204	15 / 22 · 400
Caption: updated today	14 / 20 · 400
Button label	16 / 22 · 600
Tab label	14 / 20 · 500

iOS: system SF Pro + Dynamic Type. Android: Inter + system text scaling. Body 17; metadata 14 minimum. Names, reasons and subjects expand rather than truncate.

03 Spacing



04 Radius

Control 8	Button 10	Field 12	Group 14

05 Icon families

SF Symbols on iOS. Material Symbols Outlined on Android. 24-point glyph in a 48-point target. Native mapping names live in the standard; no mixed packs or emoji.

CAMPUSHR / MOBILE V2

Controls that feel deliberate

Minimum heights, persistent labels and clear focus; no heavy borders or decorative elevation.

06 Buttons

•••••••••••• Show

Document title

Enter a document title.

52 minimum height · radius 12 · 1-point boundary. Focus uses blue; errors add words. Placeholder text never replaces a label.

Scope and date

Today | Week

Previous Wed, 21 Oct 2026 Next

Date actions each have a 48-point target. The central label opens the native date picker.

Search and selection

Remote alerts

Remember me

Native switches and checkboxes expose state. Label and control form one coherent target; supporting text stays readable.

Visual toggle/checkbox geometry is schematic; native equivalents own platform mechanics. Button/field focus, pressed, disabled, error and busy states are mandatory. Production glyphs come from the mapped native families.

Rows are the default

Independent academic component specimens. Synthetic names, times and values; no application screen composition.

08 Schedule and timeline

09:00 **Computer Networks**

CSE 5A · Room 204 · 09:00–10:00

11:15 **Database Management Systems**

CSE 5A · Room 302 · 11:15–12:15

Metric and progress

12 hours

Assigned this week

1 of 2 classes covered

One class still needs a substitute.

Default rows share a flat section with inset dividers. Eligibility, units and status are words—not colors, percentages or decorative chips alone.

CAMPUSHR / MOBILE V2

Navigation and overlays

Isolated bar and sheet anatomy. No phone frames, home screens or assembled application flows.

09–11 Navigation bar and destination sets

Back | Navigation title | Bell

Faculty

Home | Timetable | Attendance | Leave | Profile

HOD

Home | Approvals | Timetable | Workload | Profile

Tab icons use native mappings above labels; glyphs are intentionally not substituted with another icon pack in this board. Notifications: top-right bell. Settings: Profile. No floating gear.

10 Sheet and confirmation anatomy

Sheet title

Content determines height. Native detents, keyboard insets and safe areas own presentation.

Primary action

Cancel this request?

Show the actual dates, affected object and consequence. Explain whether this can be undone.

Keep request

Cancel request

24-reference top radius; system bottom edge. One modal layer. Focus enters the sheet and returns to its invoker. Protect meaningful unsaved drafts. Never announce success until the server confirms it.

Status, recovery and motion

Readable, color-independent feedback. A quiet interface still tells people exactly what happened.

12 Status system

Pending

Approved

Rejected

Canceled

Pair status text with a native semantic glyph in implementation. A pending leave remains pending; a recommendation is not final approval.

Notification row

- **Your leave request was approved** — 2 hours ago

  Casual leave · 22 Oct 2026

Empty, error and skeleton

No classes scheduled

There are no classes for this date. Choose another date to view your timetable.

Choose date

Couldn’t load documents

Check your connection and try again. Previously entered details stay available.

Try again

Static skeleton; not focusable.

Alert and toast

Important blocking issue

Native alert. Clear action and safer alternative. Not for every minor field error.

Phone number saved

13 Motion clarifies state

Tap 80–120 ms · selection 120–180 ms · native sheet spring · medium haptic after confirmed commit only. Reduced motion removes bounce/travel/shimmer. No decorative animation.
